## WEATHER PROPHET HAS AN INVENTION

Prof. Moore Explains Working of Cooling Machine.

HOT WAVE MAY END THURSDAY

Cool Breezes on the Way, but in the Meantime Sweat and Swelter Will Be Quite the Fashion-Street Thermometer Registered 93 in Shade Yesterday-Plenty of Humidity.

Hot weather rode into town yesterday on one of the brightest and warmest steeds of which the universe may boast. Old Sol is his name. He came up out of the east with a smile, the reflection of which consisted of scorching rays that as they shot over the tree tops.

One of the street car rails down in an admirable ventilation. front of the post-office, where some of the men about town fry eggs every summer in Washington, started in early with the er to keep it going. It is absolutely auto- am not opposed to building a national asphalt pavement to make the warmth matic, its working being caused by the temple of labor, as has been alleged, but high as the clock on the post-office tower The warmer the air outside becomes, the ple Association is putting forward. I want shirt collars began to wilt like flowers faster the apparatus works. Thus, when all of you delegates to read the by-laws placed before a furnace fire, and the it is 100 degrees in the shade outside, the newsboys sold papers with one hand and | cool air pours into the room at a great | see if I am not right.

Capital City ever since Grant's second accord. The hotter it is the faster it term as President stopped in front of a works, and vice versa, the machine regu-Pennsylvania avenue store, and actually lating itself, and always supplying the pointed its ears at a show window con-

wash the breakfast dishes.

Washington can afford to have hot weather. Buffalo may be cool and New York may have its ocean breezes, but Washington has her wide streets, her low ildings, her many parks, and, above all, her trees of abundant foliage. Therefore, it is perfectly proper that if any city in

as high as 93. No relief is in sight until until the policeman dispatched it. Thursday, says the weather man
